Speaking Topics

Where Life Leads – Lessons on Leadership

What does it take to be a good leader? How important are values and ethics? Those who have climbed the highest ladders to success have asked and answered those questions in the affirmative. Bill provides seasoned guidance from his experiences in the military and his life after as a civilian.

Missing Out on Earned Benefits?

.Chances are you served in the military, got out and moved on with your life. But are you leaving earned benefits on the table? Claiming what you have earned could improve the quality of your life or the life of your loved ones. Don't miss out on benefits earned through military service!

Serving After Service to Country

What does the Veterans Service Commission do for veterans and their loved ones? Bill can explain the role of this important panel. He can also provide information on how you can become involved in the process of identifying issues important to veterans as well as finding solutions, even if it means talking to Nevada State lawmakers and getting involved in the Nevada Legislative Session.

Bio

Bill is Chairman of the Nevada Veterans Commission, responsible for advising the Director of the Nevada Department of Veterans Services. He also reviews and makes recommendations regarding veterans issues and bills placed before Nevada State lawmakers.

He has a broad and diverse educational background, including training in federal mediation and conflict management. He retired from the Federal Aviation Administration as an Air Traffic Requirements Systems and Airways Facilities and Air Traffic Controllers Training Specialist.

He retired from a major defense contractor as an aerospace logistics and management engineer on the Space Shuttle Program. Also played a lead role in the integration and implementation of the FAA's Air Traffic Systems modernization program.

He served in both Korea and Southeast Asia. He was one of four aircraft launch control NCOIC's at the Royal Thai Air Base U-Tapio, Thailand, launching 1600 Aircraft Bomber and Tanker sorties over Vietnam each month. He and his team of seven trained Ethiopian Air Force aircraft technicians and flight crews in country during the Cuban Missile Crisis.

.Bill is a life member of the Disabled American Veterans and provides oversight to the day-to-day operations of the DAV Transportation System throughout Nevada.
